Sustainable Round Baling Solution

Easily the most environmental  
way to bale...

**NEW**  
RECYCLABLE!

**Tama**<sup>®</sup>  
FARM GROWN SOLUTIONS

# Easily the most environmental Crop Baling Solution ever made!

## Designed to bale better

EZ Web has the same holding forces and bale compression as either Netwrap or NRF

## Easy to load

Same application as Netwrap or NRF.

## Easy to bale

Longer rolls, fewer stops, simple, trouble-free baling.

## Easy to protect your crops

Suitable for all types of balers and crops.

### EZ Web

**115-130**

grams per bale

**<20%**

soilage  
contamination

### Netwrap

**115-130**

grams per bale

**~50%**

soilage  
contamination

### Film

**250-350**

grams per bale

**20%**

soilage  
contamination

## Designed to be recycled

EZ Web Elevates your baling with eco-conscious end-of-life management, reducing plastic waste while maintaining optimal output.

### Fully recyclable

EZ Web can be recycled on its own or with any type of Stretchfilm.

### Easily recyclable

EZ Web is removed much, much more cleanly from the bale, so it's easier to recycle.

### Genuinely recyclable

EZ Web is made with 30% post-consumer recycled content.

## REMOVE

Easily removed from the bale!

## CLEAN

Just a gentle shake can remove all crop remnants

## COLLECT

Considerably less discarded plastic from each bale

## RECYCLE

Materials are cleaned, ground and palletized in preparation for reuse.
